

Percy Jackson Series List In Order

Percy Jackson Series List In Order

Downloaded from turn-nyc-edge-vdmdp.louper.io by Alexis & Dyer

INTRODUCTION TO THE WORLD OF PERCY JACKSON

For fans of modern mythology and young adult fantasy, few series have captured the imagination quite like the adventures of Percy Jackson. Created by author Rick Riordan, this sprawling universe blends ancient Greek and Roman gods with contemporary settings, witty narration, and heart-pounding quests. Whether you are a newcomer eager to dive in or a returning reader wanting to revisit Camp Half-Blood, knowing the **Percy Jackson series list in order** is essential. The journey spans multiple series, companion books, and spin-offs, and reading them in the correct sequence enriches the experience—unfolding character growth, plot twists, and interconnected storylines as the author intended.

Below, we present a comprehensive guide to the **Percy Jackson series list in order**, covering the main saga, the sequel series, the spin-offs, and key supplementary materials. Each entry includes a brief summary to help you navigate this beloved mythological universe. Let’s begin with the series that started it all.

PERCY JACKSON & THE OLYMPIANS (THE ORIGINAL SERIES)

The core five books following Percy Jackson, a demigod son of Poseidon, as he discovers his heritage and battles mythical monsters and Titans. This is the foundation of the entire universe and the first entry in any **Percy Jackson series list in order**.

- The Lightning Thief** – Percy learns he is a demigod, travels to Camp Half-Blood, and embarks on a quest to recover Zeus’s stolen master bolt.
- The Sea of Monsters** – The magical border of Camp Half-Blood is poisoned. Percy, Annabeth, and Tyson sail into the Sea of Monsters to find the Golden Fleece.
- The Titan’s Curse** – A quest to rescue Annabeth and the goddess Artemis leads to a prophecy and a shocking betrayal.
- The Battle of the Labyrinth** – The Labyrinth beneath the United States becomes a battlefield as Luke and the Titan army prepare for war.
- The Last Olympian** – The final battle for Olympus takes place in Manhattan. Percy faces the Titan lord Kronos in a climactic showdown.

These five novels follow the original **Percy Jackson series list in order** and set the stage for everything that follows.

THE HEROES OF OLYMPUS (THE SECOND SERIES)

Set several months after the events of *The Last Olympian*, this series introduces new demigods and a new threat: the giant Gaea. It shifts focus to a group of seven heroes from both Greek and Roman camps. To maintain continuity, it is the next major chapter in the **Percy Jackson series list in order**.

- The Lost Hero** – Jason, Piper, and Leo wake on a school bus with no memories of their past. A new prophecy unfolds.
- The Son of Neptune** – Percy, who has been missing, reappears at Camp Jupiter, the Roman demigod camp, with no memory of his old life.
- The Mark of Athena** – The Greek and Roman demigods unite for a quest to find the lost statue of Athena and stop Gaea’s awakening.
- The House of Hades** – Percy and Annabeth fall into Tartarus; their friends must sail through the ancient lands of Greece to find the Doors of Death.
- The Blood of Olympus** – The final battle against the giants and Gaea takes place at Camp Half-Blood, with the fate of both camps and the gods hanging in the balance.

Reading these in the above **Percy Jackson series list in order** is crucial, as the storylines interweave and characters from the first series return.

THE TRIALS OF APOLLO (THE THIRD SERIES)

After being cast down from Olympus as a mortal teenager, the god Apollo must survive a series of trials to regain his immortality. This series is a direct sequel to *The Heroes of Olympus* and continues the overarching narrative. Adding it to your **Percy Jackson series list in order** completes the main Hero’s journey.

- The Hidden Oracle** – Apollo, now the mortal Lester Papadopoulos, arrives at Camp Half-Blood and learns he must restore the ancient oracles.
- The Dark Prophecy** – Apollo and his new friends journey to the American Midwest to rescue the lost oracle of Trophonius.
- The Burning Maze** – The quest moves to the Southwest deserts, where Apollo confronts the emperor Caligula and the mysterious Labyrinth.
- The Tyrant’s Tomb** – Apollo travels to Camp Jupiter to face the undead armies of the emperors.
- The Tower of Nero** – The final showdown takes place in New York, where Apollo must face his greatest enemy in a battle for redemption.

This series also includes a companion novella, **The Sun and the Star** (co-authored with Mark Oshiro), which features Nico di Angelo and Will Solace, but that is often read after the main five.

COMPANION BOOKS AND SHORT STORIES (THE CAMP HALF-BLOOD CHRONICLES)

Several shorter works enrich the **Percy Jackson series list in order** by filling gaps between the main series or providing side adventures. While not required, they add depth to the world.

- The Demigod Files** – A collection of three short stories set during the original Percy Jackson series, plus character profiles, maps, and activities.
- The Demigod Diaries** – Four new short stories set in the Heroes of Olympus era, including one about young Luke, Thalia, and Annabeth.
- Percy Jackson’s Greek Gods** and **Percy Jackson’s Greek Heroes** – Told in Percy’s voice, these are modern retellings of classic myths. Not required for plot but highly entertaining.
- The Demigods of Olympus** – A collection of interactive stories and interviews with the characters, released for Rick Riordan’s imprint.

For the best experience, read these after finishing the series that corresponds to their setting. They can be slotted into the **Percy Jackson series list in order** as you wish—usually between main books or after a series.

RELATED SERIES: MAGNUS CHASE AND THE GODS OF ASGARD

Though set in a different pantheon (Norse mythology), Magnus Chase is a cousin of Annabeth Chase, and the events of the Percy Jackson world are referenced. Many fans include this series in an extended **Percy Jackson series list in order** because of shared characters and timeline nods. The recommended reading order is after *The Blood of Olympus* but before *Trials of Apollo* (since a certain character appears in *The Tower of Nero*).

- The Sword of Summer** – Magnus, a homeless teen in Boston, discovers he is the son of a Norse god and must prevent Ragnarök.
- The Hammer of Thor** – Magnus and his friends search for Thor’s missing hammer while facing an invasion of undead warriors.
- The Ship of the Dead** – A journey to the land of the dead to stop Loki’s army aboard Naglfar.
- 9 From the Nine Worlds** – A collection of short stories from various characters’ perspectives, set during the events of the trilogy.

RELATED SERIES: THE KANE CHRONICLES

This Egyptian mythology series does not intersect directly with Percy Jackson except for a crossover story, but it is part of Rick Riordan’s shared universe. The **Percy Jackson series list in order** often includes it for completionists, though it can be read independently. It is best read after the first series or anytime.

- The Red Pyramid** – Siblings Carter and Sadie Kane learn they are descended from the pharaohs and must stop the god Set from destroying the world.
- The Throne of Fire** – The Kanes awaken the sun god Ra to fight the chaos serpent Apophis.
- The Serpent’s Shadow** – The final battle to save the world from Apophis.
- The Kane Chronicles Survival Guide** – A companion book with stories and puzzles.

There is also a crossover story: **Demigods & Magicians** (collecting three short stories where Percy, Annabeth, Carter, and Sadie team up). That should be read after both the original Percy Jackson series and The Kane Chronicles.

THE SUN AND THE STAR (NICO AND WILL’S STORY)

Published in 2023, this novel follows Nico di Angelo and Will Solace into Tartarus. It takes place after *The Tower of Nero* and is considered a standalone addition to the **Percy Jackson series list in order**. It is best read after completing *The Trials of Apollo*.

UPDATED TOTAL LIST: THE CORE READING ORDER

For new readers, the most straightforward **Percy Jackson series list in order** that preserves continuity is:

- Percy Jackson & The Olympians (5 books)
- The Demigod Files (short stories, optional after book 5)
- The Heroes of Olympus (5 books)
- The Demigod Daries (short stories, optional after Heroes of Olympus)
- The Kane Chronicles (3 books, optional but recommended before crossovers)
- Demigods & Magicians (crossover shorts, after Kane and Percy Jackson)
- Magnus Chase & the Gods of Asgard (3 books)
- The Trials of Apollo (5 books)
- The Sun and the Star (after Trials of Apollo)

This **Percy Jackson series list in order** ensures you experience the overarching plot without major spoilers. You may also read Magnus Chase

before Trials of Apollo to understand a minor cameo, but either way works.

WHY READING ORDER MATTERS

The universe Rick Riordan built is intricately connected. Prophecies from earlier books echo in later ones. Characters gain backstories that pay off years later. For example, a character introduced in *The Lost Hero* becomes central in *The House of Hades*. Without following the **Percy Jackson series list in order**, you might miss significant emotional beats or spoil surprises. Moreover, the humor and tone evolve, with later books addressing more mature themes while maintaining Riordan’s signature wit.

WHERE TO START IF YOU'RE OVERWHELMED

If you only have time for one series, start with **Percy Jackson & The Olympians**. It is self-contained and provides a complete story. Many readers fall in love with the characters and then naturally progress to the rest of the list. For the full experience, follow the order above. And don't forget the graphic novel adaptations—they are faithful retellings but do not replace the novels.

CONCLUSION

Exploring the world of demigods, gods, and monsters is an unforgettable journey. With this **Percy Jackson series list in order**, you have a clear roadmap from Percy’s first summer at Camp Half-Blood to Apollo’s redemption and beyond. Each book offers adventure, friendship, and the timeless lesson that even misfits can become heroes. Whether you read them one by one or binge the entire series, the magic of Rick Riordan’s storytelling will keep you turning pages. So grab your copy of *The Lightning Thief* and set sail for Camp Half-Blood—the gods are waiting.
